50X1-HUM

The entrance to ONEGA is being dredged and the draught allowed this year is 15ft. compared with 15' 6" last year. [ ] the entrance is to be dredged to the same depth as last year. [ ]

50X1-HUM

[ ] the dredger was working by the second light buoy at the entrance.

50X1-HUM

There is apparently no shortage [ ] this year. Six gangs were working continually on the quay, each gang comprising 6 men and 2 [ ] women.

50X1-HUM

50X1-HUM

There are two new buildings, or two buildings have possibly been enlarged, at the sawmill. One is a large concrete building, the other a sorting house that has been lengthened by 10-15 meters.

Last Autumn the enclosure round the sawmill was enlarged but one could still use the old road up from the quay. This year the road is blocked and one must now go round the entire enclosure to get to the built up area.

[ ] 25000 standards of timber are sawn in MEZEN annually.

SECRET

[redacted] four small guard ships were seen in the vicinity of a position 4 miles north of SVIATOI NOS.

Description:

Small boats with a step in the deckline amidships. Box shaped bridge, mast and one funnel.

50X1-HUM

At the same place a submarine was seen in what appeared to be an exercise with a twin-engined sea-plane. The submarine was too far away to take any description. The plane was very much like a "Catalina".

2. ONEGA.

A dredger was in the channel [redacted]

[redacted] The channel was in such a condition that a vessel went out with a draught of 15' 9".

[redacted] the dredger was to be hauled up to the quay to dredge there as the quay was to be lengthened.

50X1-HUM

*att 1* [redacted]  
about eight to ten vessels are delayed at the port of Onaga because  
of overloaded facilities. Only two vessels can be loaded weekly.

*att 2*

SECRET

50X1-HUM

The quay is being enlarged and will presumably be  
able to accomodate 6 timber vessels as against 4

50X1-HUM

[redacted] a dredger was lying on the bar at the entrance  
to the harbour. [redacted] it had moved into  
the quay and was dredging there. [redacted] the greatest  
drought was 14 ft. [redacted] 15'7" was allowed.

50X1-HUM

5. SAWMILL.

It is said (BY KOKUREV) that the two sawmills further  
up the river shall be discontinued and that instead  
two new ones will be built near the timber quay. This  
is to eliminate the loading of timber onto barges.

1. NAVAL.

SECRET

[redacted] 2 destroyers and 4 submarines were observed outside the KOLA INLET. One of the destroyers was towing a target.

50X1-HUM

Description of destroyers: Both similar, [redacted] one, possibly two guns in a shield on the forecastle, bridge, mast, step to the main deck, 2 funnels with torpedo tubes aft of each funnel, deck-house with one gun on top and one astern. See sketch.

50X1-HUM

Description of submarines: Only [redacted] was noted, the others were too far away. The vessels were small with clear decks and stramlined towers without platforms.

50X1-HUM

2. ONEGA

There is a new building in ONEGA which [redacted] looks like a woodpulp factory. There were some objects outside which could have been machinery. The road from the quay has been altered so that it is now impossible to get near to the building.
